## Risk Warning

Please read and accept the below

60%

To continue your application, please accept the Risk Warning below regarding the risks involved in trading leveraged products. Though you may have sufficient knowledge and experience to trade these products, please note that you can sustain a loss of some, all or more than your deposited funds. Therefore, you should not speculate with capital that you cannot afford to lose.

### Risk warning and controls

Trading Forex and Contract for Difference (CFD) carries a high level of risk, and may not be suitable for all investors. Before deciding to participate in the Forex, Commodities and Indices markets (CFDs), you should carefully consider your investment objective, level of experience and risk appetite. You should obtain independent advice if necessary. Most importantly, do not invest money you cannot afford to lose.

The leveraged nature of Forex and CFD trading means that any market movement will have an equally proportional effect on your deposited funds. This may work against you as well as for you.

I confirm that I have read the above risk warning and I understand and accept the risks involved in Forex and CFD trading.
