CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. 71% of retail investor accounts lose money when trading CFDs with this provider. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

By clicking "Continue" below I acknowledge that I have read, fully understand, accept and give my consent to the [Terms and Conditions \(Client Agreement\)](#) of KEY TO MARKETS as amended from time to time and I specifically confirm:

- to have decided to open a Key to Markets account on my own initiative, without having been solicited by neither any employee of Key to Markets nor any third party;
- to be fully aware of the high risks carried by leveraged trading through the platforms offered by Key to Markets as explained in several pages of the website and in particular in the "risk warning and disclosure section";
- to not reveal to anyone the passwords of my trading accounts and to be fully responsible for the trading activity on my accounts whether I decide to trade manually or through automated systems.
